Mal, Jalpaiguri, West Bengal

SKILLS

- Software development
- C#
- vb.net, .Net
- Python
- SQL(PostgreSQL/Oracle)
- ArcObjects
- PostGIS
- ArcGIS
- QGIS
- Google Earth Engine
- AutoCAD
- Openlayer
- HTML, Css

EDUCATION

Master of Technology

Maulana Abul Kalam Azad University of Technology, WB

Geo -Informatics 2020 - 2022

- Dissertation in "Development of Landslide Inventory Using Machine Learning"

Bachelor of Technology

Techno International New Town, Kolkata

Civil Engineering 2016 - 2020

- Coursework in "Eco-bricks:sustainable for society"

LANGUAGES

English

Hindi

Bengali

PROFILE

Highly skilled and experienced GIS Engineer with a proven track record of success in designing, developing, and implementing GIS applications and databases. Proficient in utilizing GIS software and tools to create accurate and detailed maps, perform spatial analysis, and manage geospatial data. Possess excellent analytical and problem-solving skills, and the ability to work effectively independently and as part of a team.

WORK EXPERIENCE

GIS Software Developer

MapmyIndia , New Delhi

2022 - Present

- Experience developing custom GIS applications using ArcObjects and the ArcGIS software.
- Expertise in programming languages such as C#, VB.NET, .Net which are commonly used to develop ArcObjects applications
- Knowledge of GIS concepts such as spatial data analysis, cartography, and geoprocessing.
- Strong problem-solving and troubleshooting skills, as ArcObjects development often involves complex data and software interactions.
- Familiarity with Esri's development tools, such as ArcMap, ArcScene, and ArcGIS Server.
- Application Query building with PostgreSQL and PostGIS.
- Wrote and developed new and well-tested code for different software projects.
- Integrated third-party applications into existing software, enhancing features and performance.
- Produced high-quality outputs and geographical information presentations in user-focused tools and displays.
- Maintained current industry knowledge, trends, and regulation updates to inform work.
- Updated new and modified existing applications to client needs and requests.
- Improved research methodology, developing new statistical methods and models.
- Documentation and Well presentation of work/ workflow.
- Satellite data analysis with Google Earth Engine and Python.

Accomplishment & Certification

- "Artificial Intelligence (AI) for Earth Observation (EO) and Geodata Handling and Processing"- completion certificate
- Faculty Development Program on "Geographical Information System – A multidisciplinary tool", Certificate of Participation
- edX Verified Certificate for Introduction to Cloud Development with HTML, CSS, and JavaScript
- Published RESEARCH JOURNAL on 10th INTER University Engineering, science& technology Academic Meet 2019 and Innovative project presented by FOSET
- Structural & Foundation Analysis, online project-based course, September 2020
- Quantity Surveying, Successful completion of the online project-based course, September 2020
- Participation for India's largest Civil fest innovative project presentation for GREEN CANVAS, MEGALITH 2020, IITKGP
